Numbers in () indicate reflective value. The higher the number, the less UV light the color absorbs.

The colors shown are intended to show the approximate color of the finish. Color will vary depending on the type selected. Application by machine spray or texturing will increase the depth of the color. Variation in color due to weather, job conditions and method of application should be expected. For color verification, request an actual sample in the color and texture prior to ordering material. Apply a sample of finish to be used on actual substrate before proceeding with the application. Parex USA is not responsible for color correctness of applied finish. Color must be verified and approved by owner prior to application.
