Portable Steel Buildings since 1954.

How to Specify Colors for Counters & Floors

Selecting plastic laminate color for countertop(s) in a PAR-KUT building:

1. Approve the Par-Kut standard / default color (a neutral gray, Wilsonart D92-60, Dove Gray).

Or,

2. Go to website address: www.wilsonart.com, High Pressure Laminates, All Designs. Then use Filter Options to find the color/pattern you are looking for.

There is no charge for the samples or shipping when you request directly from Wilsonart.

Please note that there is no cost difference in solids, wood grains, or pattern color choices in a matte finish. However, there is a premium charge for all other finishes.

Instructions for selecting VCT color:

1. Approve Par-Kut's standard floor color choice: Tarkett #323 Starry Night for 1/8" VCT.

Or,

2. Select one of Tarkett's standard colors from:
https://commercial.tarkett.com/en_US/collection-C002178-tarkett-vct-ii

Note: Base cove molding for tile floors shall be black vinyl. Other colors may be available for additional cost.

Samples can be purchased from the Tarkett website (above)

Par-Kut will not release a building to the fabrication schedule until all architectural choices have been made. Depending on how the purchased building is outfitted, that can include laminate color, paint color, tinted glass color, and if applicable, flooring color.
